Program Name: 2019 ISTE Conference
Credit Hours: 10

Program Description

The ISTE Conference & Expo is recognized globally as the most comprehensive educational technology conference in the world. For more than three decades, educators and education leaders have gathered at the ISTE conference to engage in hands-on learning, exchange ideas and network with like-minded thinkers seeking to transform learning and teaching. The 2018 annual event attracted over 20,000 attendees and industry representatives, including teachers, technology coordinators, administrators, library media specialists, teacher educators and policymakers. Attendees also enjoy world-class keynotes, hundreds of sessions in a variety of formats and a massive expo hall.

Objectives of Program

Engages participants over a sustained period of time allowing for analysis, discovery, and application as they relate to student learning, social or emotional achievement, or well-being: ITSE Conference & Expo participants engage in dynamic content from conference sponsors via hosted activities; in formal, public or private gatherings with structured meeting agendas, and experience social and emotional achievement by getting together with like-minded participants at scheduled social events. The event features 12,000 sessions stacked in a span of 57.5 hours over five days. Participants analyze and discover information via traditional lectures, moderated panels, research paper presentation, roundtable discussions, and poster demonstrations. Participants learn and apply knowledge via interactive lectures and hands-on activities to include bring your own device (BYOD) sessions, immersive skill-based training, experiential environments, and explorative workshops. Teaching with technology skills are critical. The need for educators to possess the skills to effectively leverage technology for learning is undeniable. The ISTE Conference & Expo offers hundreds of learning opportunities to equip educators with the skills and knowledge necessary for digital age student learning and well-being. Technology is ubiquitous and fast moving and the knowledge and best practices needed to harness it for learning and teaching are continuously evolving. ISTE intends to help educators keep pace with the rate of edtech. Through our massive expo hall, ISTE conference participants receive a one-of-a-kind opportunity to gain hands-on learning experience with the latest in education technology solutions from hundreds of organizations. The ISTE Conference and Expo presents resources that have been vetted by fellow educators and virtually endless opportunities to build influence by contributing to the field.
